

STORY 11. WORK ORDER SORT

As a user

I want to see a sorted overview of all the work orders
so it is easier to find a certain work order in the overview list

WIREFRAMES:

ACCEPTANCE CRITERIA:

- From the home page, I should be able to navigate to the work order overview page
- In the work order overview, a table is shown for each existing work order
- The sort button makes you able to sort the given overview on multiple values
- After choosing a value to sort with, the overview page is shown again in a sorted order
